		<i>If N, discuss why action toward accomplishing actions/goals has been delayed and what work will be initiated toward accomplishment.</i>
The department asks graduate faculty to provide guidance to individual students.	P	One of our graduate students does not adequately understand how to write research papers. She needs an academic intervention. If she gets proper guidance and get on the right track, our assessment results may be significantly improved.
The department promotes DBQ essay assignments in any graduate courses.	P	DBQ-inspired assignments led to a successful outcome in the assessment of historiographical proficiency. This coveted goal had been really challenging for years. The DBQ will be mandated in all graduate courses in the future, if not next year.
Professors will be encouraged to assign more work related to historical pedagogy.	P	Graduate students will be asked to create curricula and assignments for potential classes they might teach in the future. This will require them to use higher order thinking to process their graduate education in a way that enables them to formulate effective instruction for others.
