Year, Date of Patent Application

Name of Patent Applications

The image shows a complex data visualization interface, likely a dashboard for patent analysis. At the top, there is a navigation bar with a "Return to Activities" button. Below this, a large area contains a data table with various filters and column selection options. The table is currently empty, and the interface is cluttered with numerous overlapping elements, including text boxes, buttons, and checkboxes. A prominent message in the center reads "Use Select Columns to display columns you would like displayed". The bottom of the interface features a list of columns to be displayed, with "Year, Date of Patent Application" and "Name of Patent Applications" selected. The overall appearance is that of a software application with a high density of UI elements.
